

CHASING RAINBOWS

Chasing Rainbows

The intent of this zine was to explore the dreams and ambitions, ranging from silly to serious, of the various characters in Gravity Falls. The submitted illustrations would then be arranged in a rainbow, per Mabel's orders.

Chasing Rainbows was originally intended to release as a physical book in 2017. Due to a series of unfortunate circumstances, the project was cancelled and ultimately abandoned, despite intentions to release the full book digitally later that year.

The included artwork has since been published by the respective artists, but I've done my best to recreate the idea of original zine, using the files I had access to.

Thank you to all of the artists who made this zine possible, and my sincerest apologies for the project not going as planned. And thank you to HK (@ThatGFFAN) for his efforts in archiving fan projects done by this incredible fandom, encouraging me to stitch this together for everyone to finally enjoy.

Stay weird!
